

Product Information AgriPura Unifoam

Unifoam is a universal foam with a fast cleaning action to remove dirt from a wide variety of surfaces. Unifoam contains a high level of surfactants and corrosion inhibitors that reduce the need for hydroxides. This ensures that Unifoam is suitable for plastics, rubber, painted surfaces and soft metals like aluminium. Unifoam leaves a shining protective layer on these surfaces.

How to use:

Apply 2-3% of Unifoam with a proper foam lance connected to a high pressure cleaner to obtain the best results. Cover the surface to be cleaned with an even layer of 1-2 cm of foam, starting at the bottom and working up towards the ceiling. Work in blocks of approx. 5 m wide.

A contact time of 15 minutes is advised, however do not let the product dry in and do not use in direct sunlight.

Rinse all equipment and surfaces with water after use.

Maximum temperature : 60°C

Packaging

25 kg blue jerrycan; 200 kg; blue drum

Security: Use this product safely and always refer to the Safety Data Sheet

Store above freezing point In a dry storage away from direct sunlight
