

AgriPura

AgriPura Lauric Plus is a dry product, due to the combination of various organic acids with medium-chain fatty acids (lauric acid, C8 / C10 and GML90), this product works against both gram-negative and gram-positive bacteria.

By applying the **AgriPura Lauric Plus**, the infection pressure can be greatly reduced, making the animals less susceptible to Streptococcus at an early age, but also to E-Coli and Salmonella.

AgriPura Lauric Plus is a dry product, due to the combination of various organic acids with medium-chain fatty acids

AgriPura Lauric Plus is available in 25 kg bags

(lauric acid, C8 / C10 and GML90), this product works against both gram-negative and gram-positive bacteria.

By applying the **AgriPura Lauric Plus**, the infection pressure can be greatly reduced, making the animals less susceptible to Streptococcus at an early age, but also to E-Coli and Salmonella.
