

Product Information AgriPura Iophodes

AgriPura Fortides Iophodes is a 2,4% iodine based disinfectant

- Disinfectant for steel tanks and feed systems
- Breaks down the matrix of protein, fat and lime scale, removes iron oxide
- Ideal for surfaces with a complex biofilm that has not been fully removed during previous rounds
- Use only once per lifetime of the animal/cycle

How to use:

For surface and equipment disinfection:

Apply a solution of 3% Iophodes with a proper foam lance connected to a high pressure cleaner to obtain the best results. Apply to surfaces that have scaling left after standard disinfection. Can be used as an alternative to standard disinfection to ensure rotation of actives. Do not apply on surfaces that are sensitive for brown staining; test a small area first to ensure no staining occurs.

Packaging

23 kg black drum

Security: Use this product safely and always refer to the Safety Data Sheet

Store above 5° C and below 35° C in a dry, well ventilated storage away from direct sunlight.
